

Rustin's Press Information

Latest product news from Rustins, manufacturers of over 100 Wood Finishes, Specialist Paints and Floor Coatings for the professional and DIY enthusiast.

WOOD & WOODCARE

Rustins manufacture an extensive range of wood preparation products and wood finishes including their original Danish and Teak Oils developed over 50 years ago. The Teak Oil will have a new label design for 2008, as will Rustins Garden Furniture Oil, to promote their use in protecting garden furniture against the elements.

The original Teak Oil enhances the natural beauty of all woods and veneers leaving an attractive low gloss finish. Garden Furniture Oil also dries to a low gloss and contains Ultra Violet light inhibitors plus biocide which protects the oil against mould and algae growth.

New additions to the garden range are their Decking products: a "ready for use" Decking Cleaner, a durable Decking Oil, and three attractive wood shades of quick dry Decking Stain & Seal.

Rustins Decking Cleaner is the ultimate product for cleaning and reviving weathered garden decking. It is ideal for removing dirt, grease and stains prior to treatment with Rustins Stain & Seal or Rustins Decking Oil. It is available in 4 litres.

Rustins Decking Oil is a hard-wearing, water resistant oil that retains the colour of the decking. It contains Ultra Violet light inhibitors plus biocide which protects the oil against mould and algae growth. It is available in both 2.5 and 5 litres.

Rustins Decking Stain & Seal is a quick-drying, waterborne, stain which dries to a tough, water-resistant matt finish. It is available in 2.5 litres in: Antique Pine, Brown Cedar and English Oak.

Several types of display stand and Point of Sale material are available for all products to suit individual requirements.
